Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. According to paper filed on July 26, 2007, the applicants have amended claims 49 and 50.
2. Claims 34-50 are pending in the application.

Response to Arguments

3. Applicant's arguments filed on July 26, 2007 have been fully considered but they are not persuasive regarding enablement rejection. The examiner agrees with the applicant's arguments that the instant compounds are inhibitors of Cdk2/cyclin A activity based on the declaration showing inhibitory effect of instant compounds on Cdk2/cyclin A activity in vitro. However, Cdk2/cyclin A is only one of the several other known cyclin-dependent kinases which are involved or necessary for normal progression through the cell cycle. The instant specification teaches that activation of different Cdk/cyclin kinases is involved in different phases of cell cycle (see page 1, last paragraph). The applicants have not provided any evidence such as prior art references to show that hyperactivity of Cdk2/cyclin A alone is implicated in the etiology of every known cell proliferative disorder or other disease conditions mentioned in instant claims. Furthermore, the applicants have not provided any references showing well known utility of structurally closely related compounds having inhibitory activity on Cdk2/cyclin A kinase activity for treating every known cell proliferative disorder or other disease conditions mentioned in the instant claims. In regard to using combination treatment of instant compounds with hundreds of thousands of other drugs (instant claims 49 and 50), there is lot of unpredictability on the outcome of combination treatment due to drug

interaction. The applicants have not provided any references showing well known utility of Cdk2/cyclin A kinase inhibitors in combination with any other agent for treating any disease condition.

Conclusion

4. Rejection of claims 34-43, 49 and 50 under 35 U.S.C. 112, first paragraph is maintained for the reasons of record.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
